DocSolutions is the add-on which enables document management for all companies using Microsoft Dynamics NAV. DocSolutions simplifies and accelerates the management and the search of documents linked to NAV through an advanced solution of *Document and Workflow Management, CMS and Collaboration*.

## WITH DOC SOLUTIONS YOU CAN:

1. Attach file in a simple way with Drag&Drop
2. See attached files directly from Microsoft Dynamics NAV windows
3. Search documents in a natural and fast way
4. Make revisions/check-out and workflow on the most important documents
5. Share documents with colleagues and partners, also through the Internet

## MOBILE FIRST

DocSolutions adopts the "Mobile First" philosophy, adopted also by Microsoft which develops products for users always connected through mobile devices. DocSolutions interface has been designed for tablets and touch screen.
